

SARAH CHEN

San Francisco, CA | (415) 555-0198 | sarah.chen.dev@gmail.com | linkedin.com/in/sarahchendev | github.com/schen

PROFESSIONAL SUMMARY

Staff Software Engineer with 8+ years of expertise in distributed cloud architectures, large-scale asynchronous document processing pipelines, and production machine learning serving. Track record of designing fault-tolerant backend systems serving over 10M daily active users.

TECHNICAL COMPETENCIES

Languages: Python, TypeScript, Go, SQL, Rust, C++

Frameworks & Tools: FastAPI, React, Next.js, Node.js, PyTorch, LangChain, Celery, Docker, Kubernetes, Terraform

Databases & Cloud: PostgreSQL, Redis, SQLite FTS5, AWS (ECS, S3, RDS), Google Cloud Platform

PROFESSIONAL EXPERIENCE

Staff Distributed Systems Engineer | Meridian Cloud Labs, San Francisco, CA | 2022 - Present

- Architected multi-tenant document ingestion pipeline handling 50,000 PDF/DOCX files per hour with p99 latency < 350ms.
- Reduced cloud infrastructure compute expenditure by 34% through memory-efficient streaming parsers.
- Mentored 12 mid-level and junior engineers across backend and infrastructure guilds.

Senior Backend Engineer | DataScale Networks, San Jose, CA | 2019 - 2022

- Built high-throughput search microservice utilizing SQLite and Elasticsearch powering sub-50ms full-text document retrieval.
- Spearheaded migration from legacy monolithic framework to containerized Kubernetes microservices on AWS.

EDUCATION & CERTIFICATIONS

University of California, Berkeley — Bachelor of Science in Computer Science (2015 - 2019)

Certifications: AWS Certified Solutions Architect Professional, Certified Kubernetes Administrator (CKA)
